the university campus. Savio, from New York City, is the leader of the Freedom of Speech Movement. He was arrested Thursday and freed on bond Friday. (AP Wirephoto)

## Senators Hear Story of Baker's Girls, Parties

WASHINGTON (AP) — Senate investigators got a sketchy account Friday of a free-spending Bobby Baker taking a couple of beautiful young women to New Orleans and "several days of partying" last year.

This picture of the 36-year-old former Senate aide, who is married and has five children, was provided by a staff investigator for the Senate Rules Committee who said he got it secondhand. Senator J. Scott, the investigator, was called to the stand when a Puerto Rican banker who was subpoenaed to the fourth committee's hearing in New Orleans refused to testify.

Counsel for Sen. Andre of San Juan told the committee he advised his client to invoke his constitutional rights against possible self-incrimination and remain silent.

"For a married man, meeting

## Vote Canvass Is Delayed

DENVER (AP) — The Colorado Board of Canvassers postponed certification Friday of the votes cast in the Nov. 3 general election beyond the 31-day limit set by law.

Abstracts of votes haven't been received from Weld, Adams and San Miguel counties.

The board will meet again Tuesday. It is made up of the top five elected state officials: Gov. John A. Love, Atty. Gen. Dale W. Dasher, Treasurer Homer Bedford, Secretary of State Byron Anderson and State Auditor John Prentiss.

## The Weather

By the U.S. Weather Bureau, Denver Office

women in New Orleans could tend to incriminate himself," said the lawyer, Myron G. Ehrlich.

Altogether the solidly built, graying mortgage banker refused to answer 65 questions about his business and social dealings with Baker.

The committee is investigating charges that Baker was involved in a political payoff in which Matthew H. McCloud, Philadelphia builder and politician, allegedly kicked back \$25,000 for the 1960 Kennedy-Bunche campaign.

McCloud denied the charge and Baker refused to testify. (AP Photo)

Aguirre also planned the Fifth Amendment when asked if he once loaned Baker \$25,000 or accompanied him on business-planned trips to New Orleans, Las Vegas and Los Angeles.

Earlier, the committee Aguirre called Washington "fully informed" to answer all questions but was then dismissed by his client.

"I have learned," Ehrlich said at the outset, "that the answers to which might forge a link in a chain which might subject him to possible prosecution for improper association with others. If the witness follows my advice, he will refuse to answer all questions."

Beyond acknowledging that he had given the committee his financial records relating to Baker, Aguirre refused to testify. When asked about the New Orleans trip, Ehrlich interposed:

"You're asking him about meeting women in New Orleans. He'd better have a good explanation when he gets home."

Scott testified he interviewed Aguirre in Puerto Rico last Feb. 26 and the老人 answered all of his questions fully. However,

## Protesting Students Free on Bond

BERKELEY, Calif. (AP) — A University of California faculty group, guaranteeing \$25,000, bailed out of jail Friday the last of 76 demonstrators arrested for a campus sit-in over political action rules.

On the 27,000-student campus, scores of pickets disrupted classes Friday and forced some to be canceled in the continuing dispute.

Both the demonstration — broken up Thursday by police carrying scores bodily out of the dormitory building — and the sit-in had this aim:

"To bring the university into the 1960s," the protesters said, "and to end the military and racializing influence on campus for such off-campus causes as civil rights work in the South. Such now is allowed in only one place on campus and there it is carelessly regulated."

An organization calling itself the Free Speech Movement — and labeled a "willful minority of radical students" by President Clark Kerr — urged support of the picketing for a campus-wide strike.

Many students moved through the main gate. The pickets (Turn to Page A4, Column 5)

## Evans Campaign Costs at \$954

DENVER (AP) — The varying costs of winning public office were demonstrated in reports filed today with the secretary of state's office.

Democrat Frank E. Evans of Pueblo reported he spent \$654 in winning election to Congress in the 3rd District, while Democrat Roy McVicker reported expenditures of \$25,000 in his successful race in the 2nd District.

Rep. J. Edgar Chenevert, Trinidad Republican who lost to Evans, reported he spent \$3,900, and Rep. Don Brodman, Boulder Republican defeated by McVicker, listed his expenses as \$3,333.

Edwin S. Lamm, unsuccessful Republican candidate for Congress in the 4th District, reported \$2,162. Rep. Wayne Aspinwall, Democrat who was reelected to another term, submitted nearly 30 pages listing contributions and expenditures, but the secretary's office had the totals available.

Rep. Byron G. Rogers of Denver reported spending \$4,000 in winning re-election in the 1st District, and his opponent, Glenn R. Jones, spent \$2,800.

## All-Time High Seen For Highway Sluggish

CHICAGO (AP) — The nation's traffic deaths for the first 10 months this year totaled a record 32,259 and the toll for 1964 appeared bound for an all-time high of more than 40,000.

The National Safety Council said Thursday that deaths on the highways from Jan. 1 to Nov. 2 were 11 per cent more than in the first 10 months of 1963. The total number of deaths was a record high.

## She Wanted a Husband

EVANSVILLE, Ind. (AP) — A 19-year-old Evansville girl wanted to get married but her boyfriend was too poor.

So Patricia Ann Kremer mailed Gary Bugg, 20, Evansville, four \$100 bills and this unsigned note:

"Use it wisely. That's all I ask. Also, try not to find out who sent this money to you because it is a gift. God bless you and your girl friend the rest of your life."

Also, she mailed anonymously

a \$100 bill to a garage which was working on Bugg's car.

But did Gary ask Patricia Ann to marry him No, he plunked down \$300 of the \$400 on a new car.

And that's not all.

Police said Patricia Ann signed a statement admitting theft of five \$100 bills from the department store where she worked.

But all is not dark. The manager of the store said he would not press charges if the \$300 is returned.

## Cattlemen Speaker Asks Tax Shift for Schools

"Too much reliance has been placed on property tax to support public schools," said Howard Probst, executive assistant to the Governor of Colorado, Friday at the annual mid-winter convention of the Colorado Cattlemen's Association at the Acacia Hotel.

With a broader based tax, most of the increase in state appropriations could go to support higher education, according to Probst. Cost per student in the state supported institutions of higher education doubled between 1958 and 1964, he said.

A system is needed to coordinate the budget to prevent needless duplication of course offerings, he said, especially since the Federal Aid Facilities Act.

If we let control of education go to the federal government, "we have set the stage for the destruction of democracy!" Probst concluded.

"School expenditures are compounding 10 per cent per year," said E. W. Sandberg, Denver, executive director, Colorado Public Expenditure Council. Proposals to cope with the situation include Palmer Ranch's proposal for a two percent gross receipts tax and doubling corporate taxes, which, if adopted, would bring in about \$60 million.

An increase of one per cent in the sales tax would bring an increase of \$31 million. This could be adjusted with a credit

(Turn to Page A4, Column 2)

(Turn to Page A4, Column 2)

Judge Herlands suspended sentence on one man and the others received no sentences.

The six had been defendants in a case in which four others were convicted in February 1963 of conspiring to sell \$75,000 unregistered shares of United Dyestuff stock through which, the government claimed, the public was defrauded of more than \$5 million.

The case lasted 11 months and the trial transcript totaled 26,000 pages. It was the longest case in federal court history.

Judge Herlands delivered a two-day, 450-page charge to the trial jury.

In Friday's action, Judge Herlands imposed a 2½-year suspended sentence on Samuel S. Garfield whose last known address was St. Clare, Mich., an oil investor and promoter and fined him \$50,000.

Judge Herlands told Garfield, 64, "I would have sentenced you to jail but for the condition of your health."

The defendant appeared in District Court Friday before Judge William M. Calvert and his court appointed counsel, Lee Goodbar said he had checked into his client's background and found that he was indigent; whereupon Judge Calvert appointed the law firm of Goodbar and Goodbar to represent him.

Judge Herlands suspended imposition of sentence on Allard Roen, 43, whose last known address was Denver, a part-owner of the Desert Inn in Las Vegas. He fined Roen \$10,000 and placed him on two years probation.

Allen K. Swann, 72, whose last known address was Evansville, Ind., received a \$10,000 fine and no sentence because, Judge Herlands explained, he proved that he had no knowledge of the administrative rules promulgated

Judge Rules County Owns Courthouse Land

District Court Judge William G. Gobin of La Junta ruled Friday that El Paso County is the owner of Alamo Park on which the present courthouse stands.

He also ruled that unless the county ceases to use it as a park or courthouse it will revert to the city.

The case was brought by the county commissioners against the Colorado Springs Co. and the City of Colorado Springs.

The El Paso County Public Works Committee recommended clearing title to the land. The committee was named after the commissioners authorized a

PIKES PEAK REGION — Partly cloudy, through Sunday, with scattered snow flurries mostly in the mountains. High today near 35, low tonight near 15.

## GOP Governors Back Off Proposing Burch Ouster

### Policy Statement Discussed

By HARRY KELLY

DENVER, Colo. (AP) — Republican governors went behind closed doors Friday night to thrash out disagreements over demands for changes in party leadership — and to plan a policy statement reportedly denouncing extremism and taking a strong stand on civil rights.

As the 17 governors and governors-elect met in private sessions, pickets from the conservative Young Americans for Freedom marched in the dampness across from the hotel carrying signs such as, "Romney Go Home," and "YAF for Burch."

Practically all the attention in Friday's opening meeting of the GOP Governors Association was focused on the tugging and hauling over whether the governors should urge that Dean Burch be ousted as the party's national chairman.

But as the day went on more opposition appeared to develop among the governors to any urging by their young organization that Burch be ousted.

Gov. Paul Fannin of Arizona, who previously said he would not attend the conference, decided to fly to Denver on Friday night from Phoenix to join the meeting although he turned (Turn to Page A4, Column 7)

### Maestas Asks For Change in Trial Location

A motion for a change of venue in the case of Henry Eddie Maestas based on the allegation that due to "false and prejudicial statements" in the local press the defendant could not get a fair trial in El Paso County, was filed in District Court Friday.

Maestas, 28, 513 Walnut St., is charged with aggravated robbery and conspiracy.

He appeared for trial in District Court Tuesday but was under the influence of a narcotic to such an extent that Judge William M. Calvert ruled he was not physically able to be tried.

According to the motion filed Friday by his Denver attorney, Walter Gerash, the change should be to Douglas or Lincoln counties.

Gerash also states the fact that the conspiracy charge involves two co-defendants, Bennie Thomas Martinez and Henry Fillimone Vigil. Martinez, 30, was sentenced Oct. 30 to 30 to 40 years in the (Turn to Page A4, Column 3)

### CEA Adopts Sanction Rule

Guidelines for professional sanctions to prevent the violation of a right or responsibility were adopted here Friday by the 650 delegates attending the 36th Colorado Education Association's delegate assembly.

The guidelines define sanctions as they will be used by the CEA as "censure, suspension or expulsion of a member, severance of relationship with an affiliated association or other agency, imposing of a deterrent against a board of education or other agency controlling the welfare of the schools, bringing into play forces that will enable the community to help the board or agency to realize its responsibility or the application of one or more steps in the withholding of services."

The guidelines describe general policies concerning when these sanctions should be ap-

gins at 10 a.m. today at the Pikes Peak Livestock Center. The sale is sponsored by the Colorado Cattlemen's Association and the Colorado Hereford Association. (Gazette Telegraph, Photo)

## Icy Roads Bring Rash Of Mishaps

Icy, snow-packed roads caused 10 minor automobile accidents between midnight Thursday and 8:30 p.m. Friday. Slight injuries were incurred in a few of the mishaps, the State Patrol reported.

Property damage was minor in all 10, some involving two or more cars and some with just one.

By mid-evening Friday, roads in and around the city were all snow-packed and icy, causing many small fender-bender accidents.

The Patrol noted, however, that the lack of injuries was mostly due to decreased speed.

### Minister Facing Driving Charges

BOULDER (AP)—An amended charge of careless driving was filed in District Court Friday against the Rev. Markus M. Grether, 72, of Fort Collins, a retired minister.

He was convicted on two counts of involuntary manslaughter last Nov. 7 but was shortly afterwards where it had apparently been thrown when Lewis and a co-defendant, Kenneth Lloyd Edwards were attempting to escape from Monk and State Patrolman J. Mathis who were chasing them.

Edwards was found guilty of the offense by a District Court jury Sept. 9 and on Oct. 9 received a sentence of five to eight years in the State penitentiary.

Rev. Mr. Grether will be tried on the reduced charge Jan. 19.

The charge stemmed from

the deaths of Thomas and Ann Bouchard of Boulder in an au-

tomobile collision Nov. 27, 1963.

HUMANE SOCIETY ELECTS — Edgar P. Gregory and Mrs. Gregory were elected president and treasurer, respectively, of the Humane Society of the Pikes Peak Region Friday at the El Paso Club. Other officers, who were not present for the photograph, are Mrs. John Bonforte, vice president, and Mrs. Charles Bennett, secretary. (Gazette Telegraph Photo)

### Miss Luella Durr To Be Buried Monday

Funeral services for Miss Luella Durr, 19, of 613 E. Monument St., will be 2 p.m. Monday in Friendship Baptist Church Rev. A. D. Coffey officiating. Burial will be in Evergreen Cemetery.

Miss Durr who died Wednesday in a local hospital, was born Jan. 28, 1922 in Mississippi. She was a local resident since 1941 and belonged to Friendship Baptist Church.

Jeffery Backus, 21, 1035 Mesa Rd., was found guilty of carelessness in moving his parked vehicle into traffic. Judge Asher imposed a \$25 fine but suspended it on the condition McConnell receive no further moving violations for one year, and that he attend the traffic lecture in the City Auditorium on Dec. 16.

A fine of \$25 was imposed on Henry Pniak, 47, 1308 E. Madison St. was found guilty of carelessness driving.

After testimony by a police officer and a witness revealed that after he caused a 3-car rear end accident, Paul Martinez, 42, of Sugar City, left the scene of the accident and was found slumped thereafter on one-and-one-half blocks in an intersection.

BAGHDAD — Communications experts in Iraq plan to have the entire Arab world linked by telephone and teletype by the end of 1969.

D. C. Bylund, variance to build a carport on the east property line at 1704 W. Bijou St. Gary Wright, variance to use a detached garage at 2434 W. Uintah St. for an upholstery shop. Repairing antique furniture is the owner's hobby.

Granted was a request to enclose an existing carport to a garage at 811 Kingsley Dr., and the request of Donald E. Schenckie to build a single-family dwelling on a 60-foot wide lot, instead of the 100-foot width required by the zoning ordinance.

Denied were the following requests: Walt Guinn Construction Co., variance for a three-foot side yard setback from the north property line at 122 N. Union St. to use the North half of a duplex for an office.

## Judge Chides Defendant; Raises Bond

David Leadtrue Jones has "no respect for the court," Judge William M. Calvert ruled Friday in refusing to reduce the defendant's bond from \$2,500 to \$1,000.

Jones, 25, Denver, is charged with simple robbery. He is alleged to have stolen \$40 from the Allright Parking Inc., 18 S. Tejon St., Oct. 9. On Friday, his fourth or fifth appearance, he finally pleaded innocent.

His state appointed attorney John Grindell requested Judge Calvert to reduce the bond. Montell Dunn, appearing for the district attorney's office objected saying he believed "there was quite a demonstration in court" when the defendant appeared last week.

Jones opened his mouth and turned his head as though to protest but was silenced by a look from his lawyer.

Dunn was referring to the scene made by the defendant in District Court Nov. 27 when he flatly refused to accept a state appointed lawyer, insisting noisily that he already had one and arguing with Judge David W. Enoch about his "rights." At the time Judge Enoch, after telling him to be quiet, told him with asperity that if he had not already been in jail he would have been.

Jones has already had several continuances for arraignments, on each occasion explaining that his lawyer, a Mr. Epstein of Denver, would appear the following week. To date Mr. Epstein has never materialized.

In refusing to reduce bond Judge Calvert said he had reviewed what had happened last week and it was the court's opinion that the defendant was not entitled to such a reduction.

The judge then set Jan. 26 for trial.

### SCRIPTS TO GO BEHIND IRON CURTAIN

NEW YORK (AP) — A project for free distribution of American theatre scripts and books in Iron Curtain and Far Eastern nations is being undertaken by American National Theatre and Academy. It will work in collaboration with the International Theatre Institute.

The idea was initiated by playwright Elmer Rice, who found wide interest in American drama but a dearth of material about it during a recent tour of Eastern Europe.

## CEA Head Outlines Crucial Problems of Association

"A Freedom Conquered Land" is a land conquered by the education of its people to freedom, Carl S. Wilkerson, president-elect of the Colorado Education Association, said Friday night.

Wilkerson was the speaker at the CEA banquet, one of the highlights of the three-day CEA Delegate Assembly concluding in the Broadmoor Hotel today.

"There are four problems I consider to be most crucial to the CEA and Colorado teachers today," Wilkerson said. "First, the choices about who is to be educated and who will pay the cost of that education. Second, the relationships with respect to ethics, rights and responsibilities of all persons within the profession. Third, the increasing volume of culture and knowledge that the school is expected to transmit. And fourth, where the professional association will place its emphasis on welfare alone or upon the growth of the total profession."

"The final question I will deal with is where shall the major emphasis of professional association work be placed in the future? Our major concerns must be those which make a teacher a better teacher and the student a better learner."

"Alexander the Great had two kinds of soldiers, the mercenaries and the regulars. The mercenaries received a small fixed salary. The regulars got no pay — they divided the plunder. Because of his regulars, Alexander conquered the known world. We in education have our regulars too. In education, our regulars are adequate, all will be a conquered land — a land conquered by the education of all its people to freedom."

### LESS POOR

NEW YORK (UPI) — The poor may always be with us, as the old saying goes, but their number is dwindling, according to Meinhard-Commercial Corporation.

"The people of America must be made to realize that in education ... you get just about what you pay for. And what of our professional relationships of all persons in the profession? Every professional educator must be motivated by the single purpose of a more adequate education for all children.

"I am proud of teachers and what we have done thus far, but I am very critical of its in many respects when it comes to ethics. Our profession has

been ridden with poor ethics because of ignorance and thoughtlessness on our part. If we are to enter together seriously upon the issue of what shall become of education, every participating party must have ethics above reproach."

"As for the third question, we are teaching very much like we have always taught. The content of our subject is shockingly standard. Only in a few areas have we forged ahead and tried to draft a program of education designed to meet the needs of tomorrow's society. We must come to educate children in such a way that they are able to continue with their learning throughout their lives. We are going to have to make changes in our scheduling, school buildings and use of teaching machines. We will have to do a re-distribution of teachers work loads."

"The final question I will deal with is where shall the major emphasis of professional association work be placed in the future? Our major concerns must be those which make a teacher a better teacher and the student a better learner."

"Alexander the Great had two kinds of soldiers, the mercenaries and the regulars. The mercenaries received a small fixed salary. The regulars got no pay — they divided the plunder. Because of his regulars, Alexander conquered the known world. We in education have our regulars too. In education, our regulars are adequate, all will be a conquered land — a land conquered by the education of all its people to freedom."

## Unable to Pay Fine; Man Sent to Jail

Harold Roy McDaniel, 30, 325 N. Cascade Ave. was sent to County Jail Friday as he was unable to pay a \$200 fine and costs in Justice of the Peace H. C. McShane's court for driving while under the influence of intoxicating liquor Nov. 14.

Other cases were Charles Alan Shootam, 21, 3007 W. Bijou St., forfeited two \$25 bonds for driving with no operator's license Oct. 30 and Nov. 8.

Mike Makato Mizokami, 46, Blanca, 77 miles per hour in a 20 zone Nov. 7, \$10 and costs.

Phoebe Kay McReynolds, 26, 928 Querida Dr., following too closely Wednesday, \$10 and costs.

David Lindsey Small, 24, 724 E Moreno St., no operator's license Nov. 24, \$6 and costs.

Elaine Jeanette Jarlamio, 19, Pueblo, no operator's license Nov. 23, forfeited \$10 bond.

John Marshall Norton, 25, Commerce City, careless driving Wednesday, \$10 and costs.

Naomi Barbara Maddox, 31, 416 S. Institute St. no operator's license Nov. 23, \$6 and costs.

Mary Kathleen York, 31, 1802 Willow Circle no operator's license Nov. 20, \$6 and costs.

Charles Russell Mench, 17, 1120 N. Wahsatch Ave. drag costs.

Michael A. Stefanie, 17, 1519 Windfall Ave., 45 miles per hour in 30 zone and disregarding a stop sign Nov. 25, \$20 and costs.

Thomas M. Kilham, 44, 829 Pleasant St., failing to signal for a stop Friday, \$6 and costs.

Timothy S. Stewart, 15, 17 Clarkbey Rd., no operator's license Nov. 20, \$6 and costs.

Lawrence A. Reddick, 23, 2105 E. Platte Ave., failing to obey inspection law Tuesday, \$10 and costs.

Robert Gaylord Dickey, 20, 600 Shriver Rd., no operator's license and misuse of plates Nov. 16, \$5 and costs.

Brian F. Sullivan, 17, 1606 Ridge Way, 50 miles per hour in a 35 zone Tuesday, \$20 and costs.

Raymond Joseph Marsh, 28, 1728 N. Chestnut St., no permit for an illegal load Nov. 6, \$15 and costs.

William James Attack Jr., 20, Evansville, Wyo., disregarding a red signal Thursday, \$10 and costs.

Marilyn C. Hoggatt, 40, 3024 Country Club Dr., careless driving Nov. 12, \$10 and costs.

Thomas Henry Smith, 47, 1505 Edith Lane, making an imprudent turn and no valid operator's license Monday, \$20 and costs.

Mississippi Arrests at 20 In Rights Case

(Continued From Page One)

\$5,000 fine and 10 years imprisonment.

President Johnson, who had taken a personal hand in the search by ordering a widespread search for the three victims, had no comment on the arrests. His press secretary, George Reedy said "these are a matter of judicial process which it would not be quite proper to comment on at the present time."

The bodies of the three civil rights workers — two New York whites and a Negro — were found buried in an earthen farm pond dam outside Philadelphia, Miss., on Aug. 4. Each of the victims had been shot and the Negro reportedly had been beaten so badly his bones were mashed.

The long - expected arrests came in a series of raids by trenchcoat-garbed agents shortly after dawn.

State officials had been expected to cooperate by filing murder charges against some of the suspects, but the state backed out at the last minute — reportedly because FBI Director J. Edgar Hoover had consulted with integration leader Dr. Martin Luther King on the case.

The victims of the slaying were Michael Schwerner, 24, Brooklyn, N.Y.; Andrew Goodman, 20, New York City, and James Chaney, 22, a Negro from Meridian, Miss.

Services Set for Mrs. Jean Tomerlin

Funeral services for Mrs. Roberta Jean Tomerlin, 40, of 1426 N. Custer Ave., will be 10:30 a.m. Monday in East Methodist Church. Rev. Harold C. Knudsen officiating. Burial will be in Memorial Gardens.

There was snow, drifting and poor visibility along a 1,000-mile band which stretched from the Mississippi Valley to northern New England. Hazardous driving warnings were put out from eastern Missouri to the nation's Northeast corner. The north Atlantic Coast was expected to feel the full bite of the storm by early Saturday.

The Chicago area's 7 million inhabitants got the worst of a vicious winter weather system which coated Midwest highways with ice and drifting snow, snuffed the Southland with sleet, and froze the northern plains in temperatures down to 20 degrees below zero.

**WEEKEND PROJECT** — Building a cedar closet is one of the easiest of the do-it-yourself projects. TOP LEFT: Pieces of aromatic red cedar are easily cut to size, using hand or power saw. LOWER LEFT: Tongue-and-grooved feature of the cedar lumber facilitates and simplifies the job. Pieces are nailed in place with 4-penny finishing nails. RIGHT: Adding to the versatility of the closet is the addition of shelves and vertical dividers. Space here permitted installation of two hanger bars on one side of the closet. Row of shelves on other side provide good closet organization.

## Cedar Closets Pay Dividends Right Away

The next time one of your closets requires decorating, line it with cedar instead.

In terms of time and work, the job will require little more than it would to wash and paint the same closet. And once the closet has been lined with cedar, you can forget about it for years to come. You'll never have to paint it; wax, varnish, stain it or cover it in any way.

Aromatic red cedar applied to the walls of a closet enriches the appearance of the closet, provides a pleasant fragrance, and, most important, protects your clothes, woolens and furs from destructive moths.

If you decide to go ahead with a cedar closet project, it's wise to do a little planning before you start. Consider adding some shelves or dividers that will give you greater flexibility for storage. Good closet organization requires more than one hanger bar and a few scattered clothes hooks.

Installation of additional shelves and built-in compartments not only provides better storage arrangement, but also makes better use of available space, but it also gives your closet a neater, cleaner appearance.

The first step in lining a closet with cedar is to remove all old fixtures from the walls. It's best to strip the closet to the bare wall.

Cedar material, available in pre-packaged bundles, comes in easy-to-handle pieces which are applied horizontally to the wall. Simply nail the pieces to the studs in the wall and don't worry about joints occurring over these studs. Because the pieces are tongue-and-grooved at each end as well as along the edges, this isn't necessary.

Work from the bottom up, using 4-penny finishing nails to secure each piece. To give the closet a professional look, use cedar moldings in each corner and along the floor. When no corner molding is used, the pieces should be measured carefully to insure a close fit.

A hammer and saw are the only tools required to handle this job. In terms of cost, \$50 will cover the average closet. Cedar shelving will add to the versatility of the closet.

The Almanach de Gotha, an annual reference book on the royalty and nobility of Europe, was first published in 1764. Its last issue was in 1944. It will be published again in 1965 by Count Fernand de Rouvroy of France.

## 2 From State Win 4-H Honors

CHICAGO (AP) — Two Colorado high school students won honors at the National 4-H Club Congress Thursday, and a Mesa College freshman was given a special award to add to previous recognition.

Steven Greenwald of Greeley, a senior at Windsor High School, and Michael Hoppe, a junior at Sterling High School, were named winners of the annual 4-H grain marketing contest. Each will receive a three-day tour of the Chicago Board of Trade.

The Greenwald boy's parents are Mr. and Mrs. Casey Greenwald of Greeley, and Hoppe is the son of Mr. and Mrs. A. A. Hoppe of Sterling.

The special award, an engraved silver tray given in the name of President Johnson, went to Joe Boylan of Clifton, a 19-year-old who has been a 4-H member for 10 years and whose projects have earned him a net profit of more than \$3,600.

## He's Okay Girls, Ringo Report Says

LONDON (UPI) — A hospital spokesman said Friday night Beatle drummer Ringo Starr is progressing so well from his tonsilectomy that no further medical bulletins will be issued.

A bulletin from University College Hospital which removed the 24-year-old Ringo's tonsils on Wednesday said he had a "comfortable and restful night."

ARCHITECT'S SKETCHBOOK

PLANS AND IDEAS

## Make Sure Santa Comes Down Your Chimney!

By BILL MEYERIECKS

In many neighborhoods there is a friendly pride and competitive spirit in decorating the outside of the homes during the Christmas season. Sketchbook this week contributes a design plan that will have the friends and neighbors doing double-takes and the little believers in Santa howling with glee.

It's the Santa-in-the-chimney project for the roof of your house. It is simple to make from 14'-tempered hardboard or its equivalent plus a small supply of standard lumber sizes used as moulding and braces.

The Santa-chimney sits right at the apex of the roof. The preliminary step to make it requires a quick trip by you to the roof to check the pitch angle and, of course, the final trip up there to install the project.

The Sketchbook plan recommends how this can be done on different types of roof materials.

Making the cutout of Santa is no chore at all. He's waist-high as seen in the illustration, and almost life-size. The plan S-191 gives an accurate full size tracing pattern of his face and head as well as a 1" scale gridded pattern for the figure. The chimney is a straight box construction of frame and skin hardboard. You transfer the pitch angle of your roof to the sides of the chimney to form the concave angle so that the chimney and roof meet snug. A diagonal brace across the inside of the chimney holds Santa securely in position.

The Sketchbook plan S-191 gives all parts and materials lists as well as the patterns mentioned. It also includes finishing and painting instructions and step-by-step assembly directions. We have also included an alternate figure pattern of Santa's boots inverted to make it appear he is already on his way down the chimney should you care to make it. The 50-cent Sketchbook plan is, as usual, available through this newspaper.

WAIVING A CHEERY HELLO to youngsters of all ages, this colorful Santa-in-the-chimney project is a simple and delightful Christmas decoration for the top of the house. It is made from hardboard and stock lumber. The Sketchbook plan gives all patterns and details necessary. To obtain plan S-191, the Santa-Chimney Display, fill out the coupon below and mail it with 50 cents to SKETCHBOOK in care of this newspaper.

## Home Buyer Often Frowns on Small Rooms

Think big if you're going to solve the problem of a too small room.

Too often, says Eleanor Kandel, a home improvement specialist for the Flexalum division of Bridgeport Brass Company, prospects pass by a home that they otherwise like because they think that one or more rooms are too small for their family's needs.

Careful furnishing, says the Flexalum specialist, can make a small room look and "act" bigger. Here are some suggestions:

1. Don't let a small window dictate the size of the window treatment. To give a feeling of spaciousness, use an oversize aluminum blind in combination with wall to wall drapes or curtains. The horizontal louvers of the venetians also help make a wall look wider.
2. Put a full length mirror on one wall.
3. Paint in light colors — white or pastels are best.

4. Don't have a separate bookcase, television set, record player, record cabinet, etc., but combine them all on one wall in a built-in wall to ceiling unit. This will not only save space,

5. Furniture for small rooms should be simple in design. Ornamental pieces take up more room and make a small room look crowded.

**MY ANSWER**  
by *Billy Graham*

© 1964 by Chicago Tribune  
N.Y. News Syndicate, Inc.

My husband and I are always arguing about the right steps to take in bringing up our children. I believe they should be raised without resorting to the brutality of corporal punishment. Please tell me if I am right in taking this stand.—Mrs. T. R.

A good spanking and brutality are not synonymous. It is possible to go beyond the bounds of punishment and inflict physical injury. This is completely wrong. However, it is possible to err in the opposite direction, harming our children by a failure to discipline when discipline is needed. We all know that children react very differently. There are some to whom a word is all that is necessary to be deprived of some treat. There are others who need a sound spanking and profit greatly by it. By and large the problem in America today is a lack of discipline of children in those formative years when it can be so effective in helping them. In Proverbs 23:13, 14 we read: "Do not withhold discipline from a child; if you beat him with a rod, he will not die. If you beat him with a rod you will save his life." This does not mean brutal beating but a spanking which hurts and which is understood by the child. At the same time we should never strike our children in anger.

In Proverbs 13:24 we read: "He that spareth his rod hateth his son; but he that loveth him chasteneth him betimes." In Chapter 19:18: "Chasten thy son while there is hope, and let not thy soul spare for his crying." In Proverbs 22:15 we are told: "Foolishness is bound in the heart of a child; but the rod of correction shall drive it far from him." These words were written thousands of years ago but they agree with what many modern psychologists feel today.

Do you really believe we can have peace of heart and mind with so much sorrow and trouble in the world today? —L. E. R.

Yes, I know that peace is possible for people right now and regardless of outward conditions. There are three kinds of peace and they follow in a natural sequence. First of all, and without which the other two are impossible, one must have peace with God. This is a vertical relationship, made possible for us by our accepting Christ, the Son of God, as our own Savior. It is faith in Christ which gives us peace with God. The second kind of peace is the peace of God which comes into our hearts when we become His children through faith in Christ. This enables us to take the hard things of life with the knowledge that all things work together for good for those who love God. It is the kind of peace which only God can give and which the world cannot take away. Finally, there is peace with our fellow men. This finds its expression in love instead of hate, in trying to help those in need, in forgiving wrongs instead of holding resentment. There are thousands of ways in which we can show this love to others and it adds to our joy and peace. If you truly want peace you must find it in God's way.

In your opinion is the story of Lazarus and the rich man recorded in Luke a parable or a true incident? —K. M.

The story of the rich man and Lazarus is one of the many stories Jesus used about the future life. He made bold to appeal to the hope of heaven and the fear of hell.

We are not sure if it is a parable, or a true incident. But if it is a parable, a parable is used to teach specific truths, and certain truths emerge from this story.

For one thing, it teaches clearly that there are two places of abode in the life beyond, heaven and hell. It teaches that

there are "in some sort of group". It reveals that there is an impassable gulf between heaven and hell, implying that mortal terminates our opportunity to be saved.

One of the most powerful and effective stimulants to good, and incentives to evil, is a profound belief in the future life. And nothing was more clearly taught by the Lord than that life extends beyond this one.

The U.S. Army Chaplains Corps was founded in 1795.

### The Best Crowd to Follow... Is the Crowd Going to Church.

"You must not follow a multitude to do evil; nor go with a multitude to prevent justice," Exo. 23:2. What do you see in a crowd? Kings and tyrants have seen riot, rebellion and bloodshed. Jesus saw helpless, oppressed humanity as sheep not having a shepherd. Great crowds always mean some kind of hunger. Don't criticize them, try to understand and help them. When the multitude was hungry, Jesus fed them; when they were confused, He taught them; when sick, He healed them; when in trouble, He helped them. Help your friends by inviting them to church.

For The STRENGTH of YOUR LIFE WORSHIP in CHURCH this WEEK

## First Methodist To Hear Special Sermons

In connection with the Advent season, First Methodist Church will hear special sermons on Sunday.

Sunday night the Chancel choir, under the direction of John Shumaker, will present the cantata "The Song of Christmas" by Roy Ringwald. The Chapel and Wesley chorus will also sing, as well as the Music Explorers' Choir, which is under the direction of Mrs. Arch Hayes.

There will be a children's program at 7:30 p.m. Friday in the sanctuary. It will follow the pattern of recent years as a Christmas worship service of scripture and carols involving all of the children from Kindergarten through the sixth grade.

The special Christmas concert by the Glee Club and soloists of the church will be presented on Sunday night, December 20. The Christmas Eve Carol and Candle Lighting Service will be held in the sanctuary on Christmas Eve at 11 o'clock. The Rev. Lehmburg will be the speaker. There will be congregational singing of favorite Christmas carols. A candle will be given to every person entering the sanctuary and will be lighted at the close of the service.

Other seasonal activities include caroling by junior and senior high students, Teen and Twenties and Single Young Adult groups, adult Sunday school class parties, special giving projects by various groups, and a New Year's Watch Night service conducted by the high school young people in the sanctuary on New Year's Eve.

The Youth Convocation, at which perhaps 1,000 young people from all over the Rocky Mountain area will be held at First Methodist Church on December 20 through 31.

**U. S. Priest Dies  
At Bombay Meeting**

BOMBAY, India (UPI)—An American priest here for the Eucharistic Congress died Friday of a heart attack.

He was identified as Msgr. John Brosnan, about 60, from Huron, S.D. He had come to Bombay with a group of 58 priests for the Congress.

ALGIERS — Algeria is seeking closer commercial ties with several other nations.

## Will Mission To Conduct Singspiration

Rev. and Mrs. LeRoy Ormsby and group will conduct the Singspiration at 7:30 p.m. tonight at the WhoSoEver Will Mission.

"God Has Spoken" will be the title of the Evangelistic message at 7:30 p.m. by Rev. Louis Sorabella, Superintendent.

The Mission is open every night to provide food, lodging, clothing, and spiritual assistance.

The public is invited to attend all services and activities, and to prayerfully support this vital faith ministry.

The Mission is in desperate need of men's winter clothing — overcoats or jackets. Donations of soup, crackers, coffee and cookies are always welcome. The Mission has provided spiritual and physical needs to more than 1400 men and women.

Rev. Sorabella will pick up any and all items donated. For information or transportation please call 635-2646.

GEORGE A. DRAKE  
\* \* \*

## Prof. Drake To Speak at Unitarian

Professor George Drake, Director of Selected Students at Colorado College, will speak at 10:30 a.m. Sunday at All Souls Unitarian Church.

A newcomer to the CC campus this year, Dr. Drake has received his BA and MA from Oxford University, as well as his DB from the University of Chicago. The Drakes have spent several summers in Marble, Colorado, where Professor Drake has had a small church.

Religious History has been Dr. Drake's field of concentration and his talk "Open End," will examine "Christian" tradition which is actually a variety of traditions inherited from the early church.

The Sunday evening discussion group will meet at 7 p.m. in the church parlor to hear Gunther Paetsch discuss "The Secrets of Aunt Mary and Some Thoughts on Christmas."

## Advent Season Begins at Local Church

Advent season began Sunday November 29 and will continue through December 26 at Shepherd of the Hills Lutheran Church. An Advent wreath, on which an additional candle is lighted each Sunday was made by Mr. and Mrs. Henry Cannon.

Twenty-three new members were received into the congregation at the Thanksgiving evening service: Miss Gretchen Bostwick, Mr. and Mrs. Kenneth Lowe, Mrs. Charles Kiefer, Miss Ruth Chipman, Mrs. Clarice Varner, Mrs. Roy Brooks, Mrs. Dale Holt, Mrs. Frank Strange, Mrs. C. W. Stearnson, Mrs. Baldwin Rockett, Mrs. O. W. Jensen, Mrs. Horner Busby, Mrs. Nelson Burt, Miss Betty Suvanto, Mrs. Durward Collier and Mrs. Elsie Risk.

True D. Morse and Walter H. Otto will be the elders and Carl V. Henry will serve as Deacon captain.

## First Lutheran To Celebrate Communion

Holy Communion will be celebrated at both 8:30 and 11 a.m. worship services Sunday at First Lutheran Church.

The Rev. Christian J. Thearle, pastor, will deliver the communion message entitled, "Look Up," when he will discuss the Christian responsibility for hurting other people.

At 4 p.m., the church council will meet with the architect to discuss progress reports on the new sanctuary. Foundations for the sanctuary were completed this week.

Meanwhile the Senior Luther League will travel to Tabor Lutheran Church in Pueblo on Sunday to be guests of the Tabor Luther Leagues at a district rally.

Nominations for new church councilmen will be made Thursday when the church council holds its regular monthly meeting.

## Zion Temple Stages Musical

The monthly musical of the Zion Temple United Church of God, will be held at 7:30 p.m. Sunday. The Voices of Temple and other local talent will be appearing on the program.

Special guest for the event will be the Phillips Special Gospel Singers of Denver. This dynamic group has received extensive recognition for its presentation of gospel music.

Rev. E. M. Sanders and congregation invites the public to share in this musical program with them.

Still, because there is no way of keeping snow from falling, "We're keeping our fingers crossed."

CAROLING FOR OTHERS—From now till Christmas, teams of volunteer workers in sound cars will be out in residential areas to conduct the 61st annual Ingathering campaign of the Seventh-day Adventist Church. Contributions received in the door-to-door solicitation—accompanied by Christmas carols—will

go to help people of all faiths at home and abroad. The church provides medical, welfare, educational and mission services in 196 countries. In this team are (left to right): Linton Wenzel, Mr. and Mrs. William Hendricks, and William H. Bobbitt.

## Discussion of 'December Dilemma' Is Scheduled

On Saturday night, Nov. 28, a dance was held for military personnel at Fort Carson and the Air Force Academy at Temple Beth-El. The local Jewish Welfare Board Committee, headed by Mrs. Jack Tuber, served the traditional latkes for Chanukah and decorated the Social Hall.

According to Rabbi Bernard Frankel, auxiliary chaplain at Fort Carson and Rabbi of Temple Beth-El, about 30 people were present, including junior hostesses from Denver and Colorado Springs, and all had a good time.

Other women of the C.W.F. who will be assisting during the offering include Mrs. Gordon Swenson, Mrs. Wm. Woods, Mrs. Carl Henry, Mrs. T. R. Dean, Mrs. Harold Hull, Mrs. Kenneth Lowe, Mrs. Charles Kiefer, Miss Ruth Chipman, Mrs. Clarice Varner, Mrs. Roy Brooks, Mrs. Dale Holt, Mrs. Frank Strange, Mrs. C. W. Stearnson, Mrs. Baldwin Rockett, Mrs. O. W. Jensen, Mrs. Horner Busby, Mrs. Nelson Burt, Miss Betty Suvanto, Mrs. Durward Collier and Mrs. Elsie Risk.

True D. Morse and Walter H. Otto will be the elders and Carl V. Henry will serve as Deacon captain.

On Friday, Dec. 11, a special consecration ceremony will be held during regular Sabbath services to welcome new members to the religious fellowship of the congregation.

## Peak Mailing Period Hits U.S. Post Office

WASHINGTON (AP) — This is the time of year that the post office glances nervously at the sky for signs of snow, talk of possible transportation strikes very seriously and, above all, keep their fingers crossed.

For Christmas is exactly three weeks away.

"The peak mailing period is upon us right now," a department spokesman said today as he discussed the delicate delivery system that is designed to get your mail to you before the holiday — not after it.

The deadlines have been posted, the promotional campaign mounted — "Shop early, mail early, use zip codes" — and the trouble spots that turned up in previous years hopefully have been erased.

Now about all the Post Office Department can do is hope that all goes smoothly.

One thing it doesn't expect this time is another "Chicago bottleneck," last year's No. 1 problem.

Chicago is especially important because it is the approximate center of the country, and most east-west mail goes through it.

Last December a severe Midwestern storm and subzero temperatures slowed things up. So this year, the Windy City has on its South Side a brand new parcel post facility, inspected just Thursday by the top man himself, Postmaster Gen. John A. Gronowski. And \$1 million worth of new mechanical equipment has been added.

Still, because there is no way of keeping snow from falling, "We're keeping our fingers crossed."

## WORRY CLINIC

By George W. Crane, M.D., Ph.D.

With these same pupils, I get knowledge in trying to answer the rival team's typed exam along pretty well.

"So I am planning to draw questions from various sources, as well as the Bible, for pertinent course material."

"Can you suggest any additional ideas or resources that would be helpful?"

"Audience participation" is a keynote of the successful leader, so it would be well to divide the class into two rival groups, preferably with girls and boys mixed on each team.

Keep in mind the fact that the purpose of the Sunday School is two-fold, namely:

(1) To encourage more reading of the Bible itself.

(2) To practicalize Bible morals by use of current actual cases from present social and family life.

Assign some definite Bible chapters and let each team captain recruit a couple of lieutenants to type a quiz over the homework assignment.

They can probably derive 10 true-false statements and maybe 10 of the 4-answer variety, such as:

Eve was tempted by which one of these: Gorilla, Snake, Owl, Serpent?

At the meeting of the class, let each team captain exchange exams with the rival captain.

Then let each entire team sports and have an engineering have 5 minutes during which its degree, plus previous contacts members pool their combined

David deserves praise for his hobby of trying to help teenagers via serving as a Sunday School teacher. I've done the same for many years and have also found much of the church aids to be impractical, produced by "armchair" theorists instead of successful leaders of youth. Scrapbook this case.

By GEORGE W. CRANE,  
Ph. D., M. D.

CASE U-448: David Young is a talented engineer in Middlebury, Ohio, who has a splendid social hobby.

"Dr. Crane," he said, "I'm an avid reader of your educational column so I've decided to teach an 11th grade Sunday School class."

"It contains boys and girls. And the pupils in the past haven't been fond of following a standard lesson book."

"Because I am interested in sports and have an engineering have 5 minutes during which its degree, plus previous contacts members pool their combined

## Agreement Is Seen for UN

UNITED NATIONS, N.Y. forward by the 60-nation Afro-Asian group, there would be a moratorium on enforcement of Article 19, so that the Soviet Union would not appear to be paying up under duress of its application.

Official U.S. sources said Soviet Foreign Minister Andrei A. Gromyko had indicated willingness to accept this plan in two conversations with Secretary of State Dean Rusk earlier this week.

Gromyko and Rusk scheduled another meeting for Saturday. But they are expected to devote themselves to other East-West issues without going back to the U.N. crisis.

Under this plan, the Soviet could pay enough into the Treasury to escape the vote-lifting penalty of Article 19 of the U.N. charter, which provides that delinquents in arrears the equivalent of their past two years' assessments shall lose their assembly votes.

Approximately 100 research projects in this country and abroad are supported by funds of the Muscular Dystrophy Association of America, which has 380 chapters throughout the U.S.

Approximately 100 research projects in this country and abroad are supported by funds of the Muscular Dystrophy Association of America, which has 380 chapters throughout the U.S.

Under the plan formally put

forward by the 60-nation Afro-

Asian group, there would be a moratorium on enforcement of Article 19, so that the Soviet Union would not appear to be paying up under duress of its application.

Official U.S. sources said Soviet Foreign Minister Andrei A. Gromyko had indicated willingness to accept this plan in two conversations with Secretary of State Dean Rusk earlier this week.

Gromyko and Rusk scheduled another meeting for Saturday. But they are expected to devote themselves to other East-West issues without going back to the U.N. crisis.

Under this plan, the Soviet could pay enough into the Treasury to escape the vote-lifting penalty of Article 19 of the U.N. charter, which provides that delinquents in arrears the equivalent of their past two years' assessments shall lose their assembly votes.

# CSU's Rams Slip Past Pressing Falcons in Overtime, 69-66

By TOM CUSHMAN  
Gazette Telegraph Sports Writer  
DENVER — Tom Vidakovich, a slender guard from Glenwood Springs, fired in six straight points during an overtime session here Friday night to lift Colorado State University to a 69-66 victory over the Air Force Academy in a brilliant early-

season contest at the Auditorium.

The win sent the Rams into the finals of the first annual Mile High Clasic against Denver University this evening. The Falcons will meet Colorado University, victim of an 84-73 upset by Denver in the Friday night opener, at 7:30 p.m. for third

place. The championship battle will follow.

Vidakovich snapped a 66-66 tie with a field goal with 2:38 left in the overtime and then calmly sank two braces of free throws after the Falcons had battled back into ties at 62-62 and 64-64. Vidakovich's final pair came with 2:09 to go and CSU then effectively worked a

stall until star Lonnie Wright was fouled with just 19 seconds left. Wright dropped the second of his tosses to add the clincher.

The overtime heroics by Vidakovich spelled an exceptional effort by the Air Force defense and outstanding performances by a host of Falcon sophomores and junior, including Ed Sullivan, Fred Budinger, Scott Etney, and John Olive.

The Falcons had an answer for everything but the electrifying Wright in the first half. An Air Force press that stuck like a strip of masking tape was applied only minutes into the contest and it seriously disturbed the Rams' usually slick offense.

But Wright, soaring far out beyond the outstretched arms of the Falcons, deposited 13 points as his long jump shots nestled in the cords with the same soft finesse that made him one of the area's top attractions a year ago.

With the Falcons scrambling

to get organized offensively,

CSU leaped to a quick 10-3 lead

as Wright hit a pair of field goals and three other Rams regulars contributed one each. Then came the Air Force press and much of the flash quickly disappeared from the CSU attack.

With rangy sophomore Fred Budinger and Scott Etney creasing the nets from outside the Air Force gradually trim-

med away the lead until they finally moved even at 23-23 with 4:36 left in the half. The tying marker came on a goal by forward Sam Peshut, who had trimmed the lead to two points with a jumper just seven seconds earlier. But Wright picked up the momentum again, dropping five points in the fading

### Fountain Flourishes

Before the footballs are stored away in moth balls, at least on the prep level, a review of the past local schoolboy grid season is in order.

The 1964 campaign saw three area teams make it to the state playoffs. Wesson and Cheyenne Mountain captured their respective league championships and both teams qualified for the State AAA playoff. The Thunderbirds made it to the state finals before losing the state crown to undefeated Lakewood.

Lewis-Palmer High School of Monarch wrapped up the Black Forest League title and advanced to the state eight-man football semi-finals before succumbing.

And in the Pikes Peak League, Coach Joe Keegan led the Fountain gridders to a remarkable 7-3 won-loss record and third place in the PPL final standings. This was the best season for the Trojans in some time and the finest football team in Keegan's three-year coaching stint at Fountain.

With only two lettermen from the 1963 squad, Keegan and his associates, Bill Sivo, line coach, and Bert Feste, backfield coach, led the Trojans to seven victories and two losses. The Fountain team lost those two outings to the PPL undefeated champion Florence and Salida.

Included in the seven wins this season was a stunning victory over Harrison of the Triple-A Will Rogers League.

For his efforts this past sea-

**JOE KEEGAN**  
Fountain Grid Boss

son, Keegan was voted the PPL Coach of the Year.

Talking with the former Colorado State University linemen about the season, it was difficult to realize that Keegan's teams registered only four victories in the two previous seasons.

Last year the Trojans posted a 2-8 won-loss mark and the 1962 campaign produced a 2-6 record. Of course, it could be said that the Trojans weren't competing against the three other WRL teams — Cheyenne Mountain, Widefield and Air Academy High — but the 1964 Fountain football team and its coaches deserve due credit.

In reviewing the Trojans efforts on the gridiron this year, Keegan pin-pointed the reasons for his team's success when he stated, "Our kids displayed a winning attitude. They wanted to win badly enough to work for it. And they got it!"

"The success we enjoyed this season must be attributed to a combined team effort. We had some talented football players this season but there were no individual stars. Our kids strived for unity on the football field and they got it," Keegan further stated.

"I think this attitude was a carry-over from our track team winning the Pikes Peak League District Championship," Keegan said.

For a school that only has 210 students in its three top grades (approximately 100 boys), the Fountain team overcame that deficit with determination and a healthy attitude; they wanted to win and do a better job than their predecessors.

The Trojans also overcame a shortage of beef in their forward well with aggressive play, which netted the Fountain team seven victories.

Another contributing factor was the Fountain footballers' academic standing. The entire starting unit compiled a B-average. During the season the Trojans never had one player ineligible because of grades.

This year again disproves the notion that football players bring down.

CSU (AP) — The Tulsa University basketball game ended with Niagara University's victory when the Red Hounds were unable to go high with eight points to TUL-

WHERE'S THE PUCK — Duluth's Owen Rogers (far left) and Colorado College's goalie Mike Carter seem to be the only icers watching the puck as it misses its mark Friday night during the Duluth-CC hockey game

## Terrors Win Opening Game, Down Denver South in Palmer Gymnasium

By MORRIS FRASER

Gazette Telegraph Sports Writer  
Palmer made an auspicious debut to the 1964-65 basketball season Friday night, dumping Denver South, 54-41, in Palmer Gym.

The Terrors, starting slow in the first period, gained momentum later on and rode the Rebels out of contention with their superior rebounding.

Palmer travels to Lamar tonight for another game.

Denver could get only one player in double figures, forward Greg Kent with 11 points. The Terrors countered with Bill McCalvy, who had 15 for high point honors, and Bob Pearson

and Mike Romero, who canned 13 each.

Both teams sputtered mightily in the opening eight minutes as they got used to the feel of action. Then South turned on the juice and spurred to a 13-10 lead before Pearson notched a three-point play with 5:54 left in the first half. Tom Espinoza put the Terrors ahead 30 seconds later with a long set shot and Palmer never lost the lead again.

Defense, which new coach Roger O'Neil thought would be Palmer's weak point this year, was not at its best, but the Terrors kept South outside all night, switching from a zone to man-to-man defense in the sec-

ond half. The man-to-man proved effective in the fourth quarter as the Rebels spent 3:50 trying in vain to sink a ball fast break racking up additional points.

Ed Fitzgerald, Palmer's 6-6 sophomore, performed well on the defensive boards, getting 15 rebounds for top honors. The tall youngster did such a good job of jumping that he was called twice for goaltending, a rare occurrence in high school ball.

Pearson tapped 14 rebounds and McCalvy had 13. South's entire team managed only 19 rebounds against the Terrors.

Palmer took a 27-19 halftime lead and outshot the Rebels for a 40-29 fourth period lead which

knocked South out of the running. The Terrors utilized ball control tactics, with an occasional fast break racking up additional points.

## Howard Traded To Washington

By JOE REICHLER  
Associated Press Sports Writer

HOUSTON (AP) — The Los Angeles Dodgers traded four players, including towering Frank Howard, to the Washington

Senators Friday for pitcher Claude Osteen, third baseman John Kennedy and \$100,000.

Besides Howard, the biggest man in baseball, the Senators got pitchers Phil Ortega and Pete Richert and infielder-outfielder Ken McMullen.

It was the 10th trade of the busy winter meetings.

Earlier in the day, the Los Angeles Angels of the American League unloaded controversial pitcher Bo Belinsky to the fast-changing Philadelphia Phillies of the National League for rookies Costen Shockley, a first baseman, and Rudy May, a pitcher.

And the Minnesota Twins of the American League exchanged southpaw pitcher Jerry Arrigo to the Cincinnati Reds of the National League for infielder-outfielder Cesar Tovar.

"With this trade," said Washington Manager Gil Hodges, "we have as much power as any team in the American League."

A few hours later the Minnesota Twins traded southpaw Gerry Arrigo to the Cincinnati Reds for infielder-outfielder Cesar Tovar.

Belinsky's new manager, Gen. Mauch, said the 27-year-old southpaw definitely will be a contender for a regular place in the Philadelphia pitching rotation.

Said Belinsky, with characteristic modesty:

"Just tell Mr. Mauch he has a starting pitcher. I'm no contender. I'm a starter and I'm fully confident I can win."

Mauch said he wasn't worried about Belinsky's reputation. "We didn't trade for his troubles," Mauch said. "We traded for his pitching. Let's just hope this guy throws as good as everybody says he does."

Angel Manager Bill Rigney said Shockley and May "will both probably play for us next year."

"At least they'll get a solid run at it," Rigney said.

Shockley, 22, hit .281 for Arkansas last season, led the Pacific Coast League in homers with 36 and tied for the lead in runs batted in with 112. Mays a 20-year-old left-hander, had a 13-6 record with Portsmouth in the Carolina League in homers with 34 and tied for the lead in runs batted in with 112. May, a 26-year-old left-hander, had a 13-6 record with Portsmouth in the Carolina League and was 4-2 with Indianapolis in the Coast League.

Belinsky, reached at his apartment in Hollywood, said:

## Air Force Academy Tankers Kick-Off Season Today Against Cincinnati

As the winter season starts and Jim Highma, who holds the varsity breaststroke record.

Although Nugent had no experienced juniors slated for this season, he has carefully tutored a select group and now has four who are certain to cinch starting positions: They are Terry O'Donnell, a top freestyler; Warren Leek, who is showing great strength in the medleys; Ron Grabe, a butterfly specialist; and Dan McLean, the sensational diver who placed 6th in the Senior National AAU Platform Championships last year, and who is a good bet for All-American honors this year.

It is with the sophomore class, however, that Coach Nugent is most pleased. Unbeaten last year as freshman, the sophomore class is a real jackpot of talent, and includes such future Air Force greats as Ross Schenck, Richard Abramson, and Steve Seigler.

Schenck, a Northridge, Calif., native leads the class with his versatility. A great sprinter and butterfly man, he holds five fresh records. He is joined by Abramson, a native of Jamaica Estates, N.Y. Also a standout as a freshman, Rich set four freshman records, and a pool record in the distance freestyle.

The basis for this up-and-coming optimism is that the Air Force has some of the finest seniors, juniors and sophomores ever to swim for the Academy, and has several upcoming freshmen who will be national competitors in the years ahead.

The important thing, though, is that starting this year Falcon opponents are going to have more difficulty defeating the Academy swimmers, and the difficulty will increase in the years ahead.

The important thing, though, is that starting this year Falcon opponents are going to have more difficulty defeating the Academy swimmers, and the difficulty will increase in the years ahead.

# Browns Favored To Capture Title

By JACK HAND

Associated Press Sports Writer  
The Cleveland Browns should wrap up the Eastern Conference title in the National Football League Sunday by beating the St. Louis Cardinals in St. Louis. If the Browns win or tie, they go into the championship game with the Baltimore Colts, Dec. 27 at Cleveland.

If the Cards win, it will go down to the wire.

Cleveland is one of the few clubs that can move better on

\* \* \*

## Jim Brown Is Chief Weapon

By LOU MIO

CLEVELAND (AP) — The unsinkable Jim Brown has a coker of a running mate in Ernie Green — two good reasons why the Cleveland Browns now stand first in the National Football League rushing department.

The Browns have churned 1,904 yards, with Brown personally accounting for 1,288, also tops in the NFL.

But Coach Blanton Collier is the first to admit Green's performance this season has kept defensive units from keying on his big back.

Against Detroit Collier said players on the sidelines "suggested that we use Ernie more. We did and he made some important yardage." Collier also gave the former Louisville star a workout at Pittsburgh and he responded with two touchdowns.

Green doesn't capture the spotlight as much as his famous running mate, but he has been consistent. The 6-foot-2, 205-pounder has a 4.6 yard rushing average with 448 yards in 98 attempts. He has seven touchdowns, compared to eight for Brown.

Brown is still the chief infantry weapon, however, and Collier isn't afraid to let him work.

"I think he probably should carry about a minimum of 20 times a game," the coach said. "It depends on the situation, of course. If a team is keying on him too much it opens other things up."

The Browns, in their 9-2-1 record, have managed to spread the touchdown wealth around. Slot end Paul Warfield has eight. Wide receiver Frank Collins has seven. And flanker Gary Collins seven.

Collier also feels the Browns are in good emotional shape for their Sunday game against the St. Louis Cardinals in Busch Stadium. A Cleveland victory or tie means the Eastern Conference championship.

# GAZETTE TELEGRAPH

COLORADO SPRINGS

Your Freedom Newspaper

Ever striving for the Pikes Peak Region to be an even better place to live

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is self-control, no more, no less. It must be consistent with the truths expressed in such great moral guides as the Golden Rule and the Declaration of Independence.

Saturday, Dec. 5, 1964 Gazette Telegraph—5-B

## A Free Market—Your Best Protection

Not long ago the chief executive created a new office.

It is called, "The Office for Consumer Affairs." To head up this department, a woman, Mrs. Esther Peterson, was appointed. And in carrying forward her duties as a bureaucrat, Mrs. Peterson proceeded to hold conferences and to offer wholesale her views on how the government could intervene in the economy to "protect" consumers.

In logical sequence, Mrs. Peterson scheduled conferences in various cities with various groups and called for consumers to come in to make their complaints to her against the business and industrial community.

In due course she scheduled a meeting, or several of them, with NAM (National Association of Manufacturers) personnel, and let them know what she was endeavoring to do.

Thus we were considerably encouraged when, in the NAM Reports publication, President W. P. Gullander of the NAM made known his finding. And some of what he had to say is pertinent and should be widely circulated.

"Despite the skill and energy which so many put into this effort (the holding of conferences) ardent consumer interest was patently lacking," said Mr. Gullander. ". . . most attendance had to be aggressively recruited. . . . Probably 15 per cent or fewer could be termed self-inspired consumers appearing voluntarily to vent frustrations or complaints or to participate in an educational experience."

Under these circumstances, he wrote, ". . . the conferences proved not to be an effective device to improve communications between the business community and the consuming public."

"Simply stated, our efforts to assist with your conferences were not an endorsement of greater federal penetration of the consumer area, whether by the Executive Order establishing the Office of Consumer Affairs within the White House, or by White House-sponsored conferences, national, regional, or local. Our present judgment is, as you are of course aware, that a need has not been shown for new federal programs, whether regulatory or by legislation, to induce business to serve its customers responsibly and well."

## Last Hurdle

If a man were to set out upon the stony pathway to personal perfection, the last obstacle to be overcome is the thirst for power over one's fellows.

## The Federal Bulldozer

While we're thinking about various government programs it might serve a useful purpose to consider urban renewal and the excellent book, "The Federal Bulldozer," written by Professor Martin Anderson of Columbia University.

The professor is in line for a great deal of hostility from the entrenched socialist element. For he makes his case with great clarity and with stunning finality. Urban renewal has got to go.

Of course, the program was fundamentally in error. And one of the most depressing aspects of it was the way in which some businessmen, presumably favorable to free enterprise, adopted it and promoted the idea.

In theory, urban renewal was supposed to move into urban areas, take down aged and marginal buildings and replace them with bright new construction along the lines thought most worthy by government authorities.

In practice, the program is a monolithic federal fizzle, spending billions of the taxpayers' money, wasting valuable property from private owners, and, in the end, accomplishing little more than to give some construction workers jobs in certain areas that they certainly could have found in other areas.

While the fact is often overlooked, the fundamental base of the urban renewal program is that certain parts of a city are shared and must be preserved. Even if economic demands and

### PLANNED MAYHEM

To the Editor:  
A paradox to the 9th chapter of St. Luke's Gospel, verse 9, is becoming more noticeable with each passing day in bureaucratic headquarters in Washington.

The axe is laid unto the roots of the trees that are bearing good fruit. This mayhem began as soon as the candidate of the Communist-Socialist-Democratic coalition was certain of his hold on the throat of our country for another four years.

First came the moving in of the Bureau of Internal Revenue to take away more religious freedom from those who have been trying to warn a sleeping nation that they were selling their birthright for a mess of pottage seasoned with poison. They had already taken away the right of liberty and the pursuit of happiness from our good Amish citizens.)

Then comes the Secretary of Defenselessness with a broad machete grubbing out our national defense, the same kind of an asinine stunt that the New Deal bureaucracy pulled and left us wide open for Pearl Harbor. The verdict is, "The decision is irrevocable." In other words, "What can you do about it?"

Johnson doesn't want anyone saying truthful things about his red bedfellows. He should pride himself that he filled their wishes and desires to a "T" in the so-called landslide win at the polls. The outcome was demanded well in advance of the election. There are documented evidences to be had by anyone that cares enough about where we are going and how fast, if they want them. The Communists said in their campaign, "Goldwater's defeat must not just a defeat, but a landslide. Nothing less will do." It was a planned to perfection.

The regime in Washington will soon give more ground in Viet Nam as they did in Korea. They will eventually turn all of Viet Nam over to the reds.

the siren song of government regulation, so long will cures be overlooked. Instead, we have urban renewal, which is an unsuccessful patchwork that can't do the job.

This fact has been noted. Recently in many places, bond issues to support urban renewal projects have failed of passage.

Offered as a sop to racial elements insisting on integration,

the fact is that it has furthered segregation. Negroes even claim that urban renewal is a "Negro removal" project, and there is some justification for the charge.

Shams haven't disappeared under urban renewal. Actually, they have just been moved elsewhere and now, high-cost construction has often gone a begging for tenants either residential or business.

But urban blight is caused by two factors: economic fluidity and taxation. Economic fluidity is an essential, but taxation is only necessary from the government's point of view. Urban renewal can't halt economic fluidity and it increases taxes.

Now, if we really wanted to cure urban blight, and goodness knows there's some of it around, the cure would be found in tax reduction. Indeed, a given district which appears on its way to skid row, probably ought to have all its taxes lifted at once.

We are grateful to Professor Anderson for his efforts in making the point clear. We are delighted to see a qualified man come forward without a compromise and demand that urban renewal be banished from the land.

The bureaucracy in Washington should pride themselves on the human barbecue that is going on in the Congo. It is of their making. The cannibals that are there are the followers of their wined and dined Lumumba, the one that received the red carpet treatment in Washington. He was the one that led his followers to believe that when they received their independence, they would be free to take the white women for themselves, and the property of the white men for their own. That was why all the carnage took place there, and we have figured out a method of rationing air for people now that they figured out a way to ration air for gasoline. This leaves only a single approach to the problem and that is to ration gasoline. The cost of gasoline competes with human beings for air and some county officials believe that gasoline is winning. Of course, no one has figured out how much air is available yet but that can come later. For the time being, bureaucrats are breaking ground for another gigantic boondoggle which will increase the size and cost and power of government. So far, county government officials have not figured out a method of rationing air for people now that they figured out a way to ration air for gasoline. This leaves only a single approach to the problem and that is to ration gasoline. The cost of gasoline competes with human beings for air and some county officials believe that gasoline is winning. This leaves only a single approach to the problem and that is to ration gasoline. The cost of gasoline competes with human beings for air and some county officials believe that gasoline is winning. Of course, no one has figured out how much air is available yet but that can come later. For the time being, bureaucrats are breaking ground for another gigantic boondoggle which will increase the size and cost and power of government. So far, county government officials have not figured out a method of rationing air for people now that they figured out a way to ration air for gasoline. This leaves only a single approach to the problem and that is to ration gasoline. The cost of gasoline competes with human beings for air and some county officials believe that gasoline is winning. Colorado Springs, Colo.  
Saturday, Dec. 5, 1964

## National Guard Will Conduct Clothing Drive

A clothing drive will be conducted by Co. D., 140th Signal Batt. of the state National Guard.

Capt. Chester Johnson, commander of the company, said this drive would be in support of the 23rd annual clothing drive for the "Save The Children Federation."

This drive is for needy adults and children in the Appalachian areas of Kentucky, Tennessee and Western Virginia.

Capt. Johnson said the most needed items were: blue jeans, sweater, diapers, dresses, shoes, coats, shirts, pants, pajamas, blankets, overshoes and all types of underwear.

The drive will conclude Dec. 31.

Special bags are available for collecting clothing, at the National Guard Armory, 3200 N. Chestnut St. Clothing may also be brought to the Armory.

## Low Prices on Polaroid Cameras at Hatch's

Take six months to pay with no interest or carrying charge, or make your any terms you wish at Hatch's, 28 S. Tejon. Open Mon., Wed. and Fri. evenings for your convenience. adv.

## The Neighbors

By George Clark

"Here, Daddy—Mom says you forgot to take your vitamin pill this morning."

## Park Director Urges Against Cutting Trees

Woodmen, spare that tree.

In city parks, that is. That was the plea today of Stuart Richter, director of the City Parks and Recreation Department.

He urged that no one attempt to cut a Christmas tree in any of the outlying city parks such as the Garden of the Gods, North Cheyenne Canon and Palmer Park.

He said the trees in the city parks are a great asset to the entire Pikes Peak region. This beauty should not be destroyed just so that someone can get a free Christmas tree.

Quite often, he added, those who break the law and cut a tree in city parks just take the top out of one that is a quarter of a century or more old.

Richter said there are many lots in the city and region where Christmas trees can be purchased in addition to the U.S. Forest Service cutting area.

Last year a person was fined \$50 in Municipal Court for cutting a tree in a city park. He didn't get to keep the tree either.

Mr. and Mrs. Jim McDonald and children spent the Thanksgiving vacation at Arriba, Colorado, visiting their parents, Mr. and Mrs. Kermel Brent and Sharon.

Mr. and Mrs. Brad Davis, and other relatives.
